

NON-STATE ACTOR'S TRIENNIAL REVIEW OF THE OFFICIAL RELATIONS WITH WHO

Collaboration Plan between WHO and World Federation for Mental Health (WFMH) for the period 2023-2025

The WHO Executive Board admitted World Federation for Mental Health (WFMH) into official relations with WHO. The official relations are governed by the Framework of engagement with non-State actors, according to which the basis of official relations is a plan for collaboration between WHO and the non-State actor with agreed objectives and outlining activities for the coming three-year period, structured in accordance with the General Programme of Work and Programme budget and consistent with the Framework. These plans are expected to be free from concerns which are primarily of a commercial or profit-making nature.

The Executive Board, through its Programme, Budget and Administration Committee, reviews the collaboration with each non-State actor in official relations and decides on the desirability of maintaining official relations or defer the decision on the review to the following year.

The present document outlines the plan for collaboration, and serves as an agreement, between WHO and IACAPAP for the period 2023-2025, as discussed and agreed between WHO and the entity. The WHO Designated Technical Officer and the entity's focal point are responsible for this joint collaboration, including drafting and implementation of the agreed activities, on behalf of WHO and the non-State actor.

The objective of WHO's collaboration with non-State actors is, inter alia, to promote the policies and strategies derived from the decisions of the governing bodies of WHO. The agreed activities are intended to contribute to the outcome targets in the General Programme of Work.

The plan for collaboration contains activities that have been jointly planned with and tailored for WHO, and directly contribute to WHO's programmes (as opposed to benefitting public health in general).

To demonstrate the breadth of the collaboration, plans contain a minimum of two areas with three activities or three areas with two activities to cover the three-year duration of planned collaboration.

Certain activities are beyond the functional scope of official relations and are not to be reflected in this plan. These include, inter alia:

- participation in each other's meetings and conferences, including WHO experts' groups, as well as co-organization and co-sponsorship of meetings;
- policy, norm and standard setting, including information gathering, preparation for, elaboration of and the decision on normative texts;

- provision of interns, secondees or other types of human resources-related loans to WHO, and fellowships. These activities are subject to specific WHO rules and procedures;
- development and issuance of qualifying diplomas, certificates or delivery of courses offered as part of an established degree programme;
- activities which the entity conducts to serve its own mission and mandate (not with WHO);
- technical assistance or advocacy provided directly to WHO Member States, without WHO's involvement or request.

Once adopted by the WHO Executive Board, this plan for collaboration cannot be modified. The plan is published in the WHO Register of non-State Actors.

Non-State actor focal point: Professor Gabriel Ivbijaro Secretary-General WFMH

WHO Designated Technical Officer (DTO): Dr Mark van Ommeren, Unit Head, Department of Mental Health and Substance Use

Summary of the overall collaboration (100 word limit)	
The collaboration between WHO and WFMH aims to strengthen mental health and contribute to WHO's Thirteenth General Programme of Work particularly Strategic priority 1: One billion more people benefiting from universal health coverage. Many of the challenges faced historically continue, made worse by recent conflicts and the pandemic. WFMH will collaborate with WHO through technical expertise, advocacy, training, and dissemination of recommendations to advocate for mental health globally.	
1. Area of collaboration ¹	
WHO Strategic Priority (ies)	Strategic priority 1: One billion more people benefiting from universal health coverage
WHO Outcome(s)	1.1 – improved access to quality essential health services
Objective of collaboration ² : (50 word limit) To promote mental health through World Mental Health Day and by providing WHO technical input to advance universal health coverage with regards to mental health so that mental health access is for all, and supports the cross-cutting principle of empowerment of people with mental disorder contained in the WHO Comprehensive Mental Health Action Plan.	

¹ The WHO Strategic Priorities and WHO Outcomes shall be filled in by the DTO. Please see last page.

² Indicate the objective of the collaboration and briefly describe how this collaboration will contribute to WHO's work. If the collaboration is related to a specific strategy, please indicate which one.

Description of the activities to be undertaken, expected deliverables, timeframe and budget. In describing the activity, please indicate how it contributes to the work of WHO. The specific role of WHO and that of the entity for each activity are described.

Annex: “WHO Strategic priorities” and “WHO outcomes”, in line with GPW13 and current programme budget, through the triple billion goals

1. Strategic priority 1: One billion more people benefiting from universal health coverage

- Outcome 1.1 – improved access to quality essential health services
- Outcome 1.2 – reduced number of people suffering financial hardships
- Outcome 1.3 – improved access to essential medicines, vaccines, diagnostics and devices for primary health care

2. Strategic priority 2: One billion more people better protected from health emergencies

- Outcome 2.1 – countries prepared for health emergencies
- Outcome 2.2 – epidemics and pandemics prevented
- Outcome 2.3 – health emergencies rapidly detected and responded to

3. Strategic priority 3: One billion more people enjoying better health and well-being

- Outcome 3.1 – determinants of health addressed
- Outcome 3.2 – risk factors reduced through multisectoral action
- Outcome 3.3 – healthy settings and Health in All Policies promoted

4. Strategic priority 4: More effective and efficient WHO providing better support to countries

- Outcome 4.1 – strengthened country capacity in data and innovation
